Contents Volume 293/1–3

A. Fonseca
On the equality of families of decomposable symmetrized tensors . . . 1

A. Lim and C.-B. Zhu
Multiresolution on compact groups 15

B.-Y. Wang, B.-Y. Xi and F. Zhang
Some inequalities for sum and product of positive semidefinite matrices 39

S. Furtado and F.C. Silva
On the characteristic polynomial of matrices with prescribed rows . . 51

O. Neto and F.C. Silva
On the recognition and rigidity problems for sums of matrices 73

S. Serra Capizzano and C. Tablino Possio
Spectral and structural analysis of high precision finite difference matrices for elliptic operators 85

E. Katirtzoglou
The cycle time vector of D–A–D functions 133

Y. Wu, Q. Li and J. Li
Spectra and elementary cycles of the digraphs with unique paths of fixed length 145

P. Lakatos
On the Coxeter polynomials of wild stars 159

J.M. van den Hof and J.H. van Schuppen
Positive matrix factorization via extremal polyhedral cones 171

C. Margulies and W. Margulies
Nonlinear resonance set for nonlinear matrix equations 187

Y.I. Karlovich, I.M. Spitkovsky and R.A. Walker
Almost periodic factorization of block triangular matrix functions revisited 199

J. Liu and J. Wang
Some inequalities for Schur complements 233

E.H. Ayachour
Expanded systems and the ILU preconditioner for solving non-Hermitian linear systems 243

H. Haffaf, G. Dauphin-Tanguy and M. Kamel Rahmouni
Graphical matroid for causality assignment in bond graphs 257

Table of Contents continues

M. Wei
Reverse order laws for generalized inverses of multiple matrix products 273

Author index to volume 293 289

This journal is part of ContentsDirect, the *free* alerting service which sends tables of contents by e-mail for Elsevier Science books and journals. The quickest way to register for ContentsDirect is via the World Wide Web at: www.elsevier.nl/locate/ContentsDirect
If you don't have access to the WWW you can register for this service by sending an e-mail message to cdsubs@elsevier.co.uk specifying the title of the publication you wish to register for. The tables of contents are also available on the Elsevier Science website at: www.elsevier.nl or www.elsevier.com or www.elsevier.co.jp
